

## MARCH CONTEST

Gene Hinderer won the March Contest with his highly detailed garage. Many of the details were cast by Gene from mold that he made. Take a look at the interior.

## BOWLING GREEN SHOW MODULAR RAILROAD CLUB

The Show Modular Railroad Club was formed in Bowling Green, KY for the purpose of, as their name implies, provide a model railroad to set up at local communities celebrations. Below two pictures from one of their 2006 show. Lower left we see members Sonny Spillman and Paul Schnoes repairing some track problems after the layout had been put together and the first test run completed. Lower right Bruce Baggett inspects track as his RJ Corman SD tunnel motor approaches. The Show Club has found a permanent home in the newly restored Bowling Green Depot. There is also a group restoring several Passenger Cars for a future outdoor display. Bottom is a photo of an L & N Railway Post Office Car being restored, and a view of the exterior of the depot.

## PIKE SHOWCASE

This month we visit Bob Gunter's HO L & N inspired layout. Above left are two views of Bob's scratch built model of Louisville's Union Station. Bob began construction on this layout 40 years ago. It feature 100% hand laid track and scratch built turnouts.

To the right are two other scenes on his layout. *Photos by Jack Diehl*

## TRACKSIDE KENTUCKIANA

In 1940 the Louisville Railway Company made trial runs with a borrowed PCC (President's Conference Car) car on various routes around Louisville. Here it is pictured on Fourth just north of Chestnut. If you happened to catch a ride, it was free. The Railway Company purchased a fleet of PCC from the St. Louis Car Co. The order was delivered after WW II, but the cars went into service.
